cGMP THIRD PARTY MANUFACTURED LAB TESTED

Why is it hard to lose weight?

Insulin resistance is a major contributing factor. You

can't lose weight and keep it off just by cutting calories.

Even if you lose some weight, you may quickly gain it

Insulin is one of the most important hormones in your

INGREDIENTS

NON-GMO CLINICALLY PROVEN

InSea2® is harvested by hand and organically certified from wild

brown seaweed which is clinically proven to slow the conversion of carbs to glucose.†

Glucomannan (Konjac Root): Glucomannan is associated with

reductions in body weight and plasma lipid and glucose levels. It helps suppress appetite.†

Gymnema Sylvestre:Gymnema Sylvestre helps

manage healthy blood sugar levels and control sugar cravings.

Cansimax®:

Chromium:

Chromium is an essential trace blood sugar levels and appetite

mineral that helps maintain healthy

bioavailabilitv.1 Magnesium:

BioPerine®:

insulin †

Magnesium keeps blood pressure normal, bones strong, and heart rhythm steady. Magnesium deficiency can make you feel tired and weak.†

health benefits, including

White Kidney Bean: Alpha-amylase enzyme inhibitors

delaying carb absorption.†

normalizing the metabolic profile blood sugar, insulin levels, and cholesterol.

in white kidney beans help block

Cinnamon Bark Extract:

Cinnamon Bark activates cellular

support for healthy blood glucose levels and improves sensitivity to

Green Coffee Bean Extract: Green coffee beans prevents the

accumulation of fat and regulates

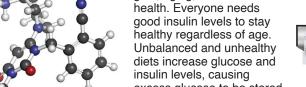

the metabolism of glucose.

Bioperine® promotes the absorption and utilization of all

other ingredients to increase their

the breakdown of carbs to sugars,

excess glucose to be stored as fat.†

body because it directly

gain, aging, and overall

affects metabolism, weight

Unhealthy insulin levels,

and unhealthy cells may lead to insulin resistance, pre-diabetes, and other serious health conditions. Insulin resistance can also trigger stress and anxiety, fatigue, hunger and cravings, poor sleep quality and other symptoms.†

Saba Control™ is a natural solution to optimize metabolism, suppress appetite, reverse insulin resistance, promote weight loss, and improve overall health. Saba Control™works to address the underlying causes of weight gain and helps to repair metabolism, so you can lose weight and keep it off. The healthier your metabolism, the easier it is to lose weight. Good metabolic health results in less fat storage. Saba Control™ goes to work immediately to block the absorption of sugars and carbohydrates.

The clinically-proven ingredients in Saba Control™ help reduce the production of glucose, support blood glucose levels already in the normal range, and allow for the absorption of the beneficial nutrients your body needs.†

DIRECTIONS: As a Dietary Supplement, adults take one veggie capsule before lunch and one capsule before dinner. Drink at least 8 glasses of water daily.

InSea2® (brown seaweed blend), is a registered trademark of InnoVactiv Inc. Bioperine® is a registered trademark of Sabinsa. Capsimax® is a trademark of OmniActive Health Technologies Ltd

KEY BENEFITS: Regulate glucose and fat metabolism and keep insulin at a healthy level[†] Slow the digestion of carbohydrates and fats†

Maintain healthy hormones levels already in the normal range[†]

Reduce hunger[†]

Help neutralize enzymes that turn carbs and sugars into glucose[†]
