PLATINUM JOINT SUPPORT

SUPERIOR OVER OTHER JOINT SUPPLEMENTS!†

CURCUMIN C3 REDUCT: (95% Tetrahydrocurcuminoids)

Curcumin C3 Reduct® is a unique, patented (U.S. PATENT #5,861,415 (1999) and INTERNATIONAL PATENT: European Patent # EP0839037 (2002)) extract of the Curcuma longa root, commonly known as "Turmeric." Turmeric has long been used in Ayurvedic medicine for centuries and is a common household remedy in India. The active constituent is known as Curcumin. Saba Platinum™ brand stands apart by using patented Curcumin C3 Reduct®, standardized to contain high concentrations of the herb's active ingredients (curcuminoids) to maximize absorption and benefits.†

BOSWELLIA SERRATA EXTRACT: Boswellia is a large branching tree native to India, Northern Africa, and the Middle East. The trunk is tapped for its resin, which is purified and used in herbal preparations. This resin, or gum, also contains the primary active components, boswellic acids, used in modern herbal preparations. Clinical trials have demonstrated that boswellic acids have anti-inflammatory properties. Extracts of boswellia are most commonly used for chronic inflammatory ailments. In May of 2013, the Natural Medicines Comprehensive Database indicated that boswellia extracts "can reduce pain and improve mobility in people with osteoarthritis in joints."†

WHITE WILLOW BARK

White Willow Bark comes from the white willow tree (Salix alba) which grows in North America, Asia, and Europe. White willow has a natural supply of salicin to help support joints and reduce muscle discomfort.†

DEVIL'S CLAW (GRAPPLE PLANT):

Devil's Claw (also called Grapple plant) is indigenous to Africa and gets its name for its eccentric hooks rooted in the fruit. Devil's claw has been widely used for joint health. A number of scientific studies have found that it can help with joint and stiffness.†

BIOPERINE®:

Enhances the bioavailability of various nutrients by increasing absorption so you receive the full benefits of the product.†

CETYL MYRISTOLEATE:

Cetyl Myristoleate, or CMO, is a fatty acid found naturally in certain animals. CMO can help with the wear and tear of the cartilage surrounding your joints to improve mobility.†

BLACK CUMIN SEED OIL (NIGELL SATIVA)

Black seed oil is an oil that is extracted from the seeds of black cumin(Nigella sativa), a plant native to southwest Asia. One of the key components of the black seed oil is thymoquinone, a compound with antioxidant and anti-inflammatory properties.†

VITAMIN D:

Vitamin D is very important for joint health. Research shows that people with low levels of Vitamin D are at a high risk of joint problems.†

KEY BENEFITS:

- Supports Joint Health †
- Reduces Joint Discomforts †
- Improves Joint Mobility†
- Improves Anti-Inflammatory Properties†
- Improves Digestive, Immune and Brain Health †
- Supports Total Wellness †
